Byung-Doh Oh

☑ oh.b@nyu.edu **④** Professional Website **♀** GitHub Profile **☎** Google Scholar

Research Interests

- Computational Linguistics; Psycholinguistics; Cognitive Modeling; Natural Language Processing; Large Language Models; Neural Network Interpretability
- My work aims to advance our understanding of real-time language processing in humans and machines by drawing on methods from computational psycholinguistics and machine learning.

EDUCATION

The Ohio State University

Columbus, OH

Ph.D. in Linguistics

2024

- Dissertation: Empirical Shortcomings of Transformer-Based Large Language Models as Expectation-Based Models of Human Sentence Processing
- Advisor: William Schuler
- Committee: Michael White, Micha Elsner, Tal Linzen

Seoul National University

Seoul, Korea

M.A. in English Language Education

2018

- Thesis: Exploring English Online Research and Comprehension Strategies of Korean College Students
- Advisor: Youngsoon So

Seoul National University

Seoul, Korea

B.A. in English Language Education, summa cum laude

2016

- Thesis: A Study on the Assessment Techniques of Language MOOCs
- Advisor: Youngsoon So

EMPLOYMENT

Assistant Professor/Faculty Fellow Center for Data Science, New York University

Sept. 2024 – New York, NY

Center for Data Science, New York University

2001

Natural Language & Speech Processing Research Intern

May 2021 – Aug. 2021 Bellevue, WA (remote)

Tencent AI Lab

• Mentor: Lifeng Jin

Awards and Honors

CDS Faculty Fellowship

2024 - 2026

Center for Data Science, New York University

Selection as DARPA Riser

2022

Defense Advanced Research Projects Agency

Fulbright Graduate Study Award

2018 - 2020

Bureau of Educational and Cultural Affairs

Chunjae Education Group Scholarship

2015

Chunjae Education Group

College of Education Alumni Association Scholarship

2011

Seoul National University

EDITED VOLUMES AND PROCEEDINGS

2025 Tatsuki Kuribayashi, Giulia Rambelli, Ece Takmaz, Philipp Wicke, Jixing Li, and **Byung-Doh**Oh. Proceedings of the Workshop on Cognitive Modeling and Computational Linguistics.

INVITED TALKS

INVITED TALKS	
2025	Byung-Doh Oh . Unveiling the language processing of humans and machines. Invited talk at the Linguistics and Multilingual Studies Program, Nanyang Technological University, Singapore.
2024	Byung-Doh Oh. What can linguistic data tell us about the predictions of large language models? Invited talk at the Department of Computer Science and Engineering and Graduate School of Artificial Intelligence, POSTECH, Pohang, Korea.
2024	Byung-Doh Oh. The bigger-is-worse effects of model size and training data of large language model surprisal on human reading times. Invited talk in the Distinguished Speakers in Language Science Colloquium Series, Saarland University, Saarbrücken, Germany.
2023	Byung-Doh Oh . The bigger-is-worse effects of model size and training data of large language model surprisal on human reading times. Invited talk at the Center for Data Science, New York University, New York, NY.
2022	Byung-Doh Oh. Computational models of sentence processing and syntactic acquisition. Invited talk at the Department of English, Dongguk University, Seoul, Korea (online).

Conference Presentations

2025	Byung-Doh Oh and William Schuler. Word frequency modulates the effects of model size and training data amount on language model surprisal. Poster presented at the 38th Annual Conference on Human Sentence Processing, College Park, MD.
2025	Byung-Doh Oh and William Schuler. Correcting language model word probabilities reveals a greater divergence between surprisal and human reading times. Poster presented at the 38th Annual Conference on Human Sentence Processing, College Park, MD.
2025	Christian Clark, Byung-Doh Oh , and William Schuler. Effects of recency bias on Transformers' predictions of reading times. Talk presented at the 38th Annual Conference on Human
D D 1 01	Sentence Processing, College Park, MD.

Byung-Doh Oh page 3/5

2023	Byung-Doh Oh and William Schuler. On the bigger-is-worse nature of pre-trained language model surprisal. Poster presented at the 36th Annual Conference on Human Sentence Processing, Pittsburgh, PA.
2023	Byung-Doh Oh and William Schuler. <i>Memory-based predictors from GPT-2 attention predict reading times over surprisal.</i> Poster presented at the 36th Annual Conference on Human Sentence Processing, Pittsburgh, PA.
2022	Byung-Doh Oh. Unified unsupervised grammar induction for typologically diverse languages. Poster presented at the DARPA Risers program, Columbus, OH.
2021	Byung-Doh Oh, Christian Clark, and William Schuler. Comparison of structural and neural language models as surprisal estimators. Short talk presented at the 34th Annual CUNY Conference on Human Sentence Processing, Philadelphia, PA (online).
2021	Byung-Doh Oh and William Schuler. Contributions of propositional content and syntactic categories in sentence processing. Short talk presented at the 34th Annual CUNY Conference on Human Sentence Processing, Philadelphia, PA (online).
2019	Evan Jaffe and Byung-Doh Oh . The role of learnability in morphological change: A computational approach. Talk presented at the Fourth American International Morphology Meeting, Stony Brook, NY.
TEACHING	
2025	Guest Lecture, DS-GA 1012: Natural Language Understanding and Computational Semantics, New York University (Instructor: Tal Linzen) "Unveiling the language processing of humans (and machines)"
2025	Guest Lecture, HG2051: Language and the Computer, Nanyang Technological University (Instructor: Hiram Ring) "Treating text documents like pizza"
SP25	Instructor of Record, DS-GA 1015: Text as Data, New York University
2024	Guest Lecture, DS-GA 3001: Computational Linguistics and Cognitive Science, New York University (Instructor: Tal Linzen) "Transformer-based language model surprisal predicts human reading times best with about two billion training tokens"
2024	Guest Lecture, Metro Early College High School "Guessing meaning and breaking it down (with NACLO problems)"
AU20, SP21	Instructor of Record , LING 3801: Codes and Code Breaking, The Ohio State University Overall student evaluation: 4.69/5 (AU20), 4.86/5 (SP21)
SU17	Teaching Assistant, College English 1, Seoul National University
SERVICE	
ORGANIZING	
2024-2025	Workshop on Cognitive Modeling and Computational Linguistics
REVIEWING	
2025	ACL Rolling Review, CogSci 2025, Nature Human Behavior, Korean Journal of Linguistics
2024	ACL Rolling Review, CogSci 2024, BlackboxNLP, Journal of Memory and Language, Frontiers in Communication, eLife, Nature Computational Science

Byung-Doh Oh page 4/5

2023	ACL Rolling Review	
2022	ACL Rolling Review	
2021	ACL Rolling Review, 11th Workshop on Cognitive Modeling and Computational Linguistics	
Departmental/University		
2024 – 2025	MS Admissions Committee, Center for Data Science, New York University	
2020, 2022	Student Volunteer, North American Computational Linguistics Olympiad (NACLO)	
2019 – 2024	Laboratory/Computing Committee, Department of Linguistics, The Ohio State University	
2019 – 2020	Treasurer, Student Linguistics Association, The Ohio State University	
2018-2019	Speakers Committee, Department of Linguistics, The Ohio State University	
2017 – 2018	Resident Advisor, Gwanak Residence Halls, Seoul National University	
2015 – 2017	International Student Assistant, Gwanak Residence Halls, Seoul National University	
Other		
2015-2016	K-MOOC Monitoring Team, National Institute for Lifelong Learning, Seoul, Korea	
2012-2014	Translator/Interpreter (ROK Air Force), ROK/US Combined Forces Command, Seoul, Korea	

Skills

Languages Korean (native), English (bilingual), Japanese (conversational)

Programming Python, C++, Bash, R, LATEX, Prolog

Languages
